

Aldemaro Romero Jr.

Biographical Summary

Aldemaro Romero Jr. is a scholar and a higher education administrator. He received his bachelor's degree in Biology from the University of Barcelona, Spain, and his Ph.D. in Biology from the University of Miami, Florida. He has published nearly 1,000 pieces including more than 20 books and monographs and hundreds of articles in both peer-reviewed and non-peer-reviewed publications. His academic interests range from environmental and evolutionary biology to marine biology to history and philosophy of science and science communication. He has also been involved in mass communication and art productions and has been awarded numerous grants and prizes for his research, teaching, and science communication work.

His experience in academia includes, but is not limited to, Director and Associate Professor of the Environmental Studies Program at Macalester College, MN (1998-2003), Chair and Professor of the Department of Biological Sciences at Arkansas State University (2003-2009), Dean and Professor of the College of Arts and Sciences at Southern Illinois University Edwardsville (2009-2014), and Dean and Professor of the George and Mildred Weissman School of Arts & Sciences at Baruch College – CUNY (2016-present).

He has played an active role in fostering the need for promoting the value of a liberal arts and sciences education through the Council of the Colleges of Arts and Sciences (CCAS) for which he has been the Chair of the Committee on Liberal Arts Institutions and is currently Chair of the Committee on Cultural Diversity. He is also an active participant of the International Council of the Fine Arts Deans (ICFAD) for which he is the Chair of the Diversity and Inclusion Committee.

He has developed a great number of outreach programs that include, but are not limited to, use of traditional media as well as the emerging electronic, social ones. He has produced/directed/written/hosted hundreds of TV and radio shows while writing hundreds of non-academic pieces in the form of regular newspaper columns and magazine articles. He is embarked in these initiatives even today. These efforts have been recognized with a number of accolades in several countries.

As an administrator, he has successfully led efforts in fundraising, profile enhancement, sustainability programs, and diversification and internationalization of faculty, students, and staff. Because of his creativity and innovative approaches, he has distinguished himself as a transformative leader.

Aldemaro Romero Jr.

Detailed Curriculum Vitae

Effective: August 2017

Areas of Expertise Higher Education and Not-for-Profit Administration. Promotion of Higher Education. Innovation and Creativity in Higher Education. Fundraising. Marketing and Public Outreach. Strategic Planning. Internationalization and Diversification. Teaching and Research.

Academic Fields Integrative Biology. Environmental Studies. Marine Mammalogy. Biospeleology. History and Philosophy of Science. Science Communication.

Academic Address Dr. Aldemaro Romero Jr.
Mildred and George Weissman School of Arts and Sciences
Baruch College, City University of New York
One Bernard Baruch Way, Box B 8-250
New York, NY 10010-5585
Aldemaro.Romero@baruch.cuny.edu
Telephone: 646-312-3870
Facsimile: 646-312-3871

Personal Address Aldemaro Romero Jr.
46 Mountain Ave.
West Orange, NJ 07052
aromerojr123@gmail.com
Cell phone: 870 761-9465

Universities Attended

<u>University</u>	<u>Location, Dates</u>	<u>Degree</u>
Universidad de Oriente	Cumaná, Venezuela 1/70-6/70	
Universitat de Barcelona	Barcelona, Spain 9/70-6/78	Licenciado Biología
University of Miami	Coral Gables, FL 1/81-8/84	Ph.D. Biology
Pennsylvania State University	University Park, PA 11/87-12/87	Certificate, Management for Managers in Natural Resources

University and Administrative Experience

2016-Present: Dean of the College of Arts and Sciences, Baruch College, City University of New York and Professor of Biology

Responsibilities and Accomplishments

As Administrator:

- Member of the President's Cabinet.
- Responsible for supporting 6,500 students and more than 3,000 majors while supervising 13 departments and many other programs both undergraduate and graduate.
- Developing and sustaining unique programs linking the arts and sciences with business and public affairs.
- Supervising a dynamic, collegial, and nationally-recognized faculty of more than 240 full-time members with courses in disciplines traditionally considered essential to a well-rounded education.
- Supervising instruction in all courses in the arts and sciences including 40 undergraduate minors.
- Providing exciting opportunities for first-year students through learning communities, and for advanced arts and sciences students through intensive interdisciplinary seminars and independent study.
- Offering a series of specializations that bridge the Weissman School with the Zicklin School of Business and School of Public Affairs, such as Business Writing, Corporate Communication, Graphic Communication, and Management of Musical Enterprises.
- Supervising Master's programs in Arts Administration, Industrial/Organizational Psychology, Corporate Communication, Mental Health Counseling, and Financial Engineering.
- Responsible for leadership of the Weissman School's planning, budgeting, and faculty development and for managing its programs to enhance its quality and reputation.
- Leading the implementation of the School's strategic plan and coordinating the School's role in carrying out the College's strategic plan.
- Strengthening and expanding relationships with both external and internal constituencies and helping develop additional financial resources for the School to carry out its mission.
- Developing major initiatives regarding the promotion of the liberal arts in general and the School in particular through both conventional and electronic media.

As Fundraiser:

- I developed a Dean's Council whose members provide financial assistance to the school directly or indirectly through their contacts.

- I established a fund for supporting Latin American Art exhibitions in the College's Mishkin Art Gallery.
- Under my leadership, a fund was created to support the theater program at the Baruch Performing Arts Center.
- I fundraised for a number of other initiatives.
- I produced a Fundraising video

As Communicator:

- I developed a Marketing Strategic Plan for the School.
- I direct, produce, and host weekly videoblogs about the news and events taking place in the School.
- I direct, produce, and host the weekly "College Talk" radio show and podcast about the life and work of the faculty in the School.
- I write the weekly newspaper column "College Talk," an offshoot of the above-mentioned radio show.
- I developed the initiative of setting Wikipedia pages for each one of our faculty members.
- I directed and produced a Music video for the School.
- I am developing a new website for the school that incorporates new features such as 3-D and artificial intelligence capabilities.
- I have developed the Social Media for the School.

As Innovator:

- I developed a diversity plan aimed and increasing 2-D diversity in the School. As a result of that the number of underrepresented minorities in the School has increased significantly.
- I developed the "Art-A-Thon," an annual series of events related to the arts and creative writing with the School with some events being broadcast live via Internet worldwide.
- I developed an exhibit of self-taught Latin American artists using my own art collection in order to raise funds for the college's art gallery.
- I developed the Innovative, Daring, and Exceptional Approach (IDEA) initiative to foster innovation at the School in the areas of scholarship, pedagogy, and service.
- I am planning a concert to raise funds for the Performing Arts Center by inviting a number of artists to perform my father's music for which I will be the conductor.
- I developed the ideas of publishing a book about the oral histories of the School titled "FROM DEPARTURE TO DESTINATION: Reminiscences of the Weissman School of Arts and Sciences at Baruch College," which I co-edited with Dr. Gary Hentzi.

- I raised the funds for creating a 3-D teaching lab in which faculty and students can enjoy the opportunities that ne virtual technologies have to offer for pedagogical purposes.
- In conjunction with the business school I developed a program that allows our students in the arts and sciences to develop their entrepreneurial capabilities.

2009–2014: Dean of the College of Arts and Sciences, Southern Illinois University Edwardsville (SIUE) and Professor of Biological Sciences

Responsibilities and Accomplishments

As Administrator:

- Responsible for 19 departments and 85 areas of study, which include more than 330 full-time faculty/instructors who deliver classes to more than 8,000 students (<http://www.siu.edu/artsandsciences/>).
- Overseeing an annual operating budget of more than \$26 million plus external research grants and contracts totaling more than \$8 million.
- Development in conjunction with faculty of a 5-year strategic plan emphasizing initiatives on (a) interdisciplinary curricula, (b) experiential, hands-on and service learning, (c) internationalization, (d) diversification of faculty, students, and staff, (e) faculty-student engagement, (f) intellectual enrichment and collaboration, (g) increasing the institutional profile, and (h) improving physical and financial assets. (http://www.siu.edu/artsandsciences/CAS_2010_StrategicPlanNov09.pdf).
- Supervise the University Botanical Gardens (<https://www.siu.edu/gardens/>), the University Museum (<http://thisweekincas.com/2011/10/24/university-museum-expands-the-collection/>), and the nature preserve (<http://thisweekincas.com/2011/01/24/siu-now-has-protected-nature-preserve/>).
- Ensured that every program that could be accredited was accredited.
- Supervised the construction and renovation of a science complex (\$80,000,000), the expansion and renovation of the Art & Design Building (\$14,000,000) (<http://www.siu.edu/artsandsciences/WebCam.html>), (<https://vimeo.com/62964273>), the building of an astronomical observatory, and upgrading of the research and teaching greenhouse.
- Increased overall enrollment and retention of students.
- Implemented professional advising within the College. With the centralizing of student advising, faculty are no longer asked to register students for classes, do graduation checks, etc. This has had a positive impact on recruitment and retention. The faculty role has shifted to mentoring.

As Fundraiser:

- Fundraising from individuals, foundations, and corporations having raised millions of dollars for diverse projects from national and international sources since July 2009, while completing a \$5.5-million capital campaign goal (e.g., <http://www.youtube.com/watch?v=NIsvdT39dZE>). I also designed and am currently executing a plan for a \$50-million campaign for the construction of a Visual and Performing Arts Center on campus (<http://vimeo.com/52501607>).

As Communicator:

- Furthering the importance of a liberal arts education through public outreach, an education that emphasizes critical thinking, a broad view of the world, and the connections among different disciplines (<http://vimeo.com/28207561>). I have also testified before a congressional subcommittee on the importance of supporting a liberal arts education (http://www.youtube.com/watch?v=BKercxj0cCI&feature=player_embedded).
- Fostering the need for promoting the value of a liberal arts education through the Council of the Colleges of Arts and Sciences (CCAS) of which I was Chair of the Committee on Liberal Arts Institutions. (http://www.siue.edu/artsandsciences/2012_CCAS_Romero.pdf). Active participant, through the International Council of Fine Arts Deans (ICFAD), in discussions aimed at promoting the value of degrees in the visual and performing arts.
- Developed a number of outreach initiatives including books (http://www.amazon.com/Adventures-Academy-Professors-Lincoln-Beyond/dp/0979849918/ref=sr_1_1?ie=UTF8&s=books&qid=1291391551&sr=1-1), weekly newspaper columns (http://www.siue.edu/artsandsciences/CT_CollegeTalk.html), weekly radio shows (<http://www.siue.edu/artsandsciences/CASsegue.html>), TV series (<https://vimeo.com/105918992>), and documentaries, as well as social media venues (including apps) (<http://thisweekincas.com>) and campus wide arts festivals including flash mobs (<https://vimeo.com/65160835>). These initiatives are aimed at increasing the visibility of the College while recruiting more excellent faculty, staff, and students and for fundraising purposes (<http://vimeo.com/58147059>).

As Innovator:

- Founded and currently direct the Cuban and Caribbean Center (CCC) existing to promote faculty and student exchanges between the U.S. and countries in the Caribbean region, particularly Cuba (<http://www.siu.edu/CAS/CCC/> and <http://vimeo.com/55283338>). As part of this endeavor, I led the efforts in order to sign a cooperative agreement between the Southern Illinois University system and the *Universidad de La Habana*. I have also led the efforts that resulted in taking SIUE students to perform in Cuba and Trinidad and Tobago as well to bringing Cuban artists and art to the U.S. in conjunction (in part) with the Museum of Fine Arts of Havana.
- Introduced the use of 3-D technology in the classroom.
- Developed the Interdisciplinary Roundtables aimed at increasing the scholarly and pedagogical initiatives for faculty members across disciplines. A significant accomplishment by one of these roundtable groups was the designation of an on-campus 380-acre SIUE Nature Preserve (<http://thisweekincas.com/2011/01/24/siue-now-has-protected-nature-preserve/>).
- Created the Visiting Scholar Initiative so departments can utilize visiting faculty for teaching and academic purposes.
- Continued supporting the Faculty Development Initiative aimed at providing faculty members with course releases to enhance their productivity in scholarly and pedagogical enterprises.
- Supported the development/improvement of websites.
- Founded the journal *Polymath*, an electronic, open-access, peer-review journal that is interdisciplinary in nature (<https://ojcs.siu.edu/ojs/index.php/polymath/about>).
- Expanded the number of international artists and scholars brought to campus through regular events such as Arts & Issues and the annual Colloquium under the umbrella title “Thinking about...” (<http://www.siu.edu/artsandsciences/colloquia/>).
- Developed programs to attract and retain students, faculty, and staff of ethnic groups traditionally underrepresented in academia.
- Developed the annual Art-A-Thon festival on campus aimed at promoting the arts and literature not only on campus but also in the surrounding community.
- Launched a program designed to recognize, honor, and develop some of the star student achievers of our College. Through this program, called STELLAR (STudent ExceLLence & Achievement Recognition), students who are identified by their departments, as outstanding representatives of their discipline receive special recognition and support from the College to help them achieve their full potential in their academic program and beyond (<http://www.siu.edu/artsandsciences/STELLAR.html>).
- Developed the idea of an interdisciplinary degree of entrepreneurship for the arts in conjunction with the School of Business.

- Under my leadership *The Interdisciplinary Research and Informatics Scholarship (IRIS) Center*, was established. This is an active interdisciplinary facility supporting individual and collaborative scholarship, a field that is receiving much attention both nationally and internationally, and supports the College's—and SIUE's—mission, vision, values, and long-term goals (http://www.siue.edu/iris/events_archive.shtml).
- Supported the university library by donating a collection of about 50,000 documents (including printed, video and audio material) concerning scholarly areas such as speleology and marine mammalogy among others. (For a video that summarizes these accomplishments go to: <https://vimeo.com/49052048>).

2003–2009: Chair and Professor, Department of Biological Sciences, Arkansas State University (ASU), Jonesboro, AR

Responsibilities and Accomplishments

As Administrator:

- Responsible for 24 tenured/tenured-track faculty members, 4 full-time instructors, 2 full-time staff, 550 undergraduate students and 69 graduate students.
- Responsible for B.S., M.S., M.A. degrees as well as Ph.D. degrees in associated programs of Environmental Sciences and Molecular Biosciences.
- Responsible for undergraduate tracks in diverse areas including, but not limited to, Wildlife Management and Environmental Biology.
- Overseeing an operating budget of approximately \$2 million per year, plus external research grants and contracts totaling approximately \$16 million in annual expenditures.
- Strategic planning.
- I created the appropriate environment in which there was an increase in number of scholarly publications by more than 600% and the amount of grant money received by nearly 600%.
- Establishment of a field biological station.
- Establishing a study-abroad program in Belize.

As Communicator:

- Developing numerous outreach programs such as the publication of the book *Adventures in the Wild: Tales from Biologists from The Natural State* published by Arkansas University Press, which presents the field and lab experiences of the Biology faculty at ASU. I contributed two chapters to that book.

- I edited and also wrote many articles for the weekly science column in *The Jonesboro Sun*. I produced and directed the nationally syndicated weekly radio show “Science in the Natural State” aired by KASU –a NPR affiliate- as well as several TV documentaries.
- I co-developed the “Science Flicks” series projecting science-based movies followed by a discussion with a panel of experts from both across campus and even external guests and later became a course.
- I co-organized with the Department of Chemistry and Physics the monthly events for the 2009 “Year of Science.”

As Fundraiser:

- Fundraising for improving the infrastructure of several of teaching labs and outreach initiatives such as “The Hall of Science” and an ecological garden.

As Innovator:

- I was the founder and Editor-in-Chief of the *Journal of Integrative Biosciences*, a peer-reviewed, open access electronic journal published by Arkansas State University.
- I led the initiative of having ASU to sign the *Talloires* Declaration aimed at increasing the environmental sustainability on campus.
- I created and led initiatives such as the Interdisciplinary roundtables in which faculty members from the natural sciences, social sciences, and humanities met to discuss current academic issues.
- I also led the initiative of creating a departmental library with thousands of holdings in books, journals, reprints and audiovisual materials.
- Developed a web site in six different languages and I produced a recruitment poster in Spanish. As a result of that, the international student population increased significantly.
- I created and taught new courses such as Marine Mammalogy, Laboratory of Marine Mammalogy, Field Course in Marine Mammalogy, Biospeleology, Science Communication for Scientists, Science in the Cinema, History of Biological Ideas and History and Philosophy of Science.
- I donated to the Ellis Library of Arkansas State a 16,000-document collection on environmental issues in Latin America. This is a unique set of publications that provides researchers around the world with exceptional and extremely difficult to find materials about the state of the environment south to the U.S. border.

**1998-2003: Director and Associate Professor of the Environmental Studies Program,
Macalester College, St. Paul, MN**

Responsibilities and Accomplishments

As Administrator:

- I was responsible of an interdisciplinary program that integrated faculty and students across several disciplines and departments around an environmental curriculum.
- Strategic planning.
- Fundraising for specific projects.
- Participation in diversity initiatives.
- I was the Director of the College's Ordway Natural History Study Area, a nature preserve and a field station.
- Supervised an annual environmental audit of the campus as the co-chair of the Campus Environmental Issues Committee.
- I encouraged inter-departmental cooperation and participation and a maximization of campus resources, both human and material.

As Innovator:

- Developed new courses in the environmental studies area not only strongly interdisciplinary but also innovative in nature and approaches.
- I recruited, mentored, and promoted students, faculty, and staff of ethnic groups that have been traditionally underrepresented in the natural/environmental sciences.
- Stressed initiatives involving undergraduate students in faculty scholarly activities.
- Emphasized interdisciplinary approaches to teaching and research.
- Promoted environmental literacy among students, faculty, and staff.
- Prepared students for a wide variety of career options.
- Developed a very active outreach program by offering public lectures and lecture series, seminars, workshops, and conferences.
- I founded and was the first Editor-In-Chief of the *Macalester Environmental Review*, a peer-reviewed, open-access electronic journal.
- Produced an annual report on the nature and development of environmental academic programs in U.S. institutions of higher education that was widely disseminated.
- Developed partnerships with other institutions and organizations.
- I led the initiative of having Macalester College to sign the *Talloires* Declaration aimed at increasing the environmental sustainability on campus.

- I created and taught new courses such as Environmental Analysis and Problem Solving (undergraduate, seminar). Environmental Issues in Latin America and the Caribbean (undergraduate, graduate, seminar), Environmental Science (graduate and undergraduate, lecture), Biology of Marine Mammals, Laboratory of Marine Mammalogy, Marine Biology, and Field Studies in Marine Biology.

Other Academic Appointments

1996-1998: Assistant Professor of Biology, Florida Atlantic University, Davie, FL.

1994-1996: Instructor, Miami-Dade Community College, Miami, FL.

1994-1996: Adjunct (Research) Associate Professor, University of Miami, FL.

1987-1994: Adjunct Associate Professor of Biology, Universidad Central de Venezuela, Caracas, Venezuela.

1986-1994: Executive Director and CEO, BIOMA, The Venezuelan Foundation for the Conservation of Biodiversity, Caracas, Venezuela.

1985-1986: Country Program Director, The Nature Conservancy, Washington, D.C.

1978-1979: Assistant Professor, Universidad Nacional Experimental Francisco de Miranda, Coro, Venezuela.

1972-1976: Coordinator of the Hydrozoology Lab, *Museo de Zoología*, Barcelona, Spain.

1970-1970: Laboratory Assistant, Instituto Oceanográfico de la Universidad de Oriente, Cumaná, Venezuela.

Grants, University Scholarships, Fellowships, and Prizes

A) Research Grants

- 1981 - Peter Nikolic Fellowship in Animal Behavior and Charles Tobach Fund award. Amount: \$330. Project title: The evolution of behavior in surface (eyed), cave (blind), and intermediate forms of *Astyanax mexicanus* (Pisces: Characidae).
- 1982 - Organization for Tropical Studies post-course award. Amount: \$1,500. Project title: Genetic basis of behavior and phenotypic variability in *Astyanax fasciatus* (Cuvier) (Pisces: Characidae) in different environments of Costa Rica.
- 1982 - National Speleological Society research grant. Amount: \$255. Project title: Genetical, morphological, and behavioral studies on the evolutionary biology of the *Astyanax*-species complex of Middle America.
- 1983 - Southern Regional Education Board research grant. Amount: \$761.84. Project title: Reactions to light in cave populations of *Trogloglanis pattersoni* and *Satan eurystomus* (Pisces: Ictaluridae) (with S. M. Green).
- 1983 - Explorers Club research grant. Amount: \$600. Project title: Variation in apparently neutral morphological characters of the cave populations of *Astyanax fasciatus* (Pisces: Characidae).
- 1983 - Sigma-Xi, The Scientific Research Society research grant. Amount: \$180. Project title: Aggressive behavior between the surface (eyed) and cave (blind) forms of *Astyanax fasciatus* (Pisces: Characidae).
- 1983 - National Speleological Society research grant. Amount: \$300. Project title: Variation in apparently neutral morphological characters of the cave populations of *Astyanax fasciatus* (Pisces: Characidae).
- 1985 - Universidad Central de Venezuela research grant. Amount: \$10,000. Project title: Experimental analysis of the migratory behavior of fishes in continuous channels (with L. Levin and P. Belmonte).
- 1986 - Universidad Central de Venezuela research grant. Amount: \$10,000. Project title: Experimental analysis of the migratory behavior of fishes in continuous channels (with L. Levin and P. Belmonte) (renewal).
- 1988 - Universidad Central de Venezuela research grant. Amount: \$15,000. Project title: Studies on orientation in fish migration (with L. Levin).
- 1991 - Fauna & Flora Preservation Society research grant. Amount: \$7,500. Project title: Paraguaná Critical Areas Program.
- 1993 - Fauna & Flora Preservation Society research grant. Amount: \$7,500. Project title: freshwater biological preserve design in Paraguaná, Venezuela.
- 1999 - Keck Student-Faculty Collaboration proposal. Amount: \$4,520. Project title: distribution and exploitation of cetaceans in the Southern Caribbean. II: Grenada and Adjacent Waters.
- 1999 - Wallace Faculty research grant. Amount: \$6,200. Project title: Distribution and exploitation of cetaceans in the Southern Caribbean. III: Trinidad and Tobago.
- 2000 - Wallace Faculty research grant. Amount: US \$7,000. Project title: Distribution and exploitation of marine mammals in the Southern Caribbean. V: Tobago.

- 2000 - Wallace Faculty Travel grant. Amount: \$4,900. Project title: Paleoenvironment and taphonomy of the Alcover-Montral fossil quarries (Tarragona Province, NE Spain) (with Raymond Rogers).
- 2001 - Wallace Research grant. Amount: \$5,000. Project title: Behavioral responses in “blind” cave fishes with developmentally induced eyes (with Melody Sakazaki).
- 2004 – ASU Faculty Research Reallocation Grant. Amount: \$1,000. Project title: Impact of Yankee whaling on marine mammal populations in the Caribbean.
- 2005 - ASU Faculty Research Grant. Amount: \$5,000. Project title: Ecological impact of whaling and dolphin fisheries on the populations of marine mammals in St. Vincent and the Grenadines.
- 2005 – State Wildlife and Game Commission (Arkansas). Amount: \$37,351. Project title: Status report for the Southern cavefish *Typhlichthys subterraneus*.
- 2006 - National Speleological Society research grant. Amount: \$528. Project title: Genetic structure of *the Southern Cavefish, Typhlichthys subterraneus*.
- 2006 – North American Native Fishes Association Corcoran Education Grant. Amount: \$938.65. Project title: North American cave fish conservation website.
- 2009 – Middle East Studies Committee, Arkansas State University. Amount: \$7,500. Project title: The marine mammals of Morocco.
- 2014 – Increasing the representation of women in STEM, particularly under-represented minority women. NSF Advance grant. Total: \$2,176,384 over 5 years (pending).

B) Conservation Biology Grants

- 1986 - MacArthur Foundation grant. Amount: \$210,000 (over three years). Project title: Conservation institutional building in Venezuela.
- 1987 - Tinker Foundation grant. Amount: \$45,000 (over two years). Project title: Creating the Cinaruco-Capanaparo National Park.
- 1987 - Schneirla Foundation grant. Amount: \$10,000. General support.
- 1988 - Noyes Foundation grant. Amount: \$10,000. General support.
- 1989 - International Foundation grant. Amount: \$20,000. General support.
- 1989 - Inter American Foundation grant. Amount: \$190,000 (over two years). Project title: Helping the local communities in the Venezuelan Páramo.
- 1989 - W. Alton Jones Foundation grant. Amount: \$65,000. Project title: Creating the Santos Luzardo National Park.
- 1990 - MacArthur Foundation grant. Amount: \$100,000 (over two years). General support.
- 1990 - Inter American Foundation grant. Amount: \$120,000 (over two years). Project title: Supplemental assistance for the Páramo project.
- 1991 - Heinz Foundation grant. Amount: \$245,000 (over three years). Project title: Sustainable development in the Venezuelan Andes.
- 1992 - Tinker Foundation grant. Amount: \$55,000. Project title: Environmental Information Center for Venezuela.
- 1992 - Inter American Foundation grant. Amount: \$75,000. Project title: Environmental Information Center for Venezuela.

C) Scholarships and Fellowships

- 1981 – CONICIT Scholarship (Consejo Nacional de Investigaciones Científicas y Tecnológicas, Caracas, Venezuela).
- 1981 - Fundayacucho Scholarship (Fundayacucho, Caracas, Venezuela).
- 1983 - Maytag Fellowship, University of Miami (Coral Gables, FL).
- 1985 - Conservation Fellowship, The Nature Conservancy (Washington, DC).
- 1987 - Conservation International Scholarship for attending "Management Program for Natural Resource Managers" at Pennsylvania State University.

D) Teaching Awards

- 1981 - Teaching Assistant Appointment (Department of Biology, University of Miami).
- 1981 - Outstanding Teaching Assistant for 1980-81 Academic Year (Department of Biology, University of Miami).
- 1982 - Honors Teaching Assistant Appointment (Department of Biology, University of Miami).
- 1982 - Outstanding Teaching Assistant for 1981-82 Academic Year (Department of Biology, University of Miami).
- 1983 - Honors Teaching Assistant Appointment (Department of Biology, University of Miami).

E) Other Grants, Prizes, Distinctions

- 1974 - Honorable Mention (First Latin American Congress of Science Journalism, Caracas).
- 1974 - Feijóo Prize (Spanish Science Journalism National Award). Spanish Association for Advancement of Science, Madrid, Spain.
- 1982 - Travel grant. American Association for the Advancement of Science.
- 1984 - Travel grant. American Association for the Advancement of Science.
- 1989 - Honorable Mention. Humboldt Award for Documentaries on National Parks.
- 1990 - Honorable Mention. Seguros Lara Award for Environmental Journalism for the TV programs "The Other Paraguaná," "Páramos Forever," and "In Search of the Spectacled Bear."
- 1990 - Municipal Environmental Distinction. Caracas City Hall. Caracas, Venezuela.
- 1990 - Honorable Mention, CONICIT (Consejo Nacional de Investigaciones Científicas y Tecnológicas) National Science Award. Caracas, Venezuela.
- 1990 – Municipal Award for Environmental Conservation. Sucre District.
- 1992 - Henri Pittier Medal. Ministry of the Environment and Renewable Natural Resources of Venezuela.
- 1993 - Humboldt Award to the Best Professional Nature Video. Latin American Institute of Social Research
- 1995 – Travel Grant. Whale and Dolphin Conservation Society.
- 1997 - National Science Foundation's sponsored Molecular Genetic Analysis Applied To Evolution, Ecology and Systematic Biology Course at San Francisco State Univ.
- 2011 – Diversity initiatives. Minority Access, Washington, DC.

- Jones and Bartlett Publishers
- Oxford University Press
- Pearson
- WCB/McGraw-Hill Publishers
- W.H. Freeman & Co.

Courses Taught (alphabetical order)

- Animal Behavior (graduate and undergraduate, lecture)
- Behavioral Ecology (graduate and undergraduate, lecture)
- Biology and Geology of the Hawaiian Islands (undergraduate, field course)
- Biology of Fishes (undergraduate, lecture)
- Biology of Marine Mammals (graduate and undergraduate, lecture, lab, and field)
- Biospeleology: Life in Darkness (undergraduate and graduate, lecture and field)
- Cellular and General Biology (undergraduate, lab)
- Comparative Anatomy of Vertebrates (undergraduate, lab)
- Conservation Biology (undergraduate and graduate, lecture)
- Contemporary Biology (undergraduate, lecture)
- Environmental Analysis and Problem Solving (undergraduate, seminar)
- Environmental Issues in Latin America and the Caribbean (undergraduate, graduate, seminar)
- Environmental Science (graduate and undergraduate, lecture)

- Society for the Study of Evolution (SSE) (1982-2010)

Doctoral Dissertation Title

Responses to light in surface and cave populations of the freshwater teleost *Astyanax fasciatus* (Pisces: Characidae): An evolutionary interpretation (x + 130 pp.).

Doctoral Dissertation Committee

Steven M. Green [Chair], John S. Heywood, Julian C. Lee (Department of Biology, University of Miami), Brian L. Partridge (Department of Biology, University of Miami and Department of Medicine, University of California at San Diego), Gene S. Helfman (Department of Zoology, University of Georgia, Athens).

List of articles, Books, Book Chapters, Abstracts, Obituaries, and Book

Reviews Published (Names in bold face correspond to my students who appear as coauthors in those articles). Full list of publications with links to the pdf version of almost all of them is available at:

New Taxa Described

001. *Tarracolimulus* nov. gen. Romero & Vía 1977. Arthropoda : Limulidae.
 002. *Tarracolimulus rieki* nov. spec. Romero & Vía 1977. Arthropoda : Limulidae.
 003. Paleocyphonautidae nov. fam. Romero 1978. *Incertae sedis*.
 004. *Paleocyphonautes* nov. gen. Romero 1978. *Incertae sedis* : Paleocyphonautidae.
 005. *Paleocyphonautes vertexacutatus* nov. spec. Romero 1978. *Incertae sedis* :
 Paleocyphonautidae.
 006. *Paleocyphonautes viai* nov. spec. Romero 1978. *Incertae sedis* :
 Paleocyphonautidae.
 007. *Paleocyphonautes rugosus* nov. spec. Romero 1978. *Incertae sedis* :
 Paleocyphonautidae.
 008. *Tarracodiscus* nov. gen. Romero, Rogers & Gershwin 2011. Cnidaria :
 Aequoreidae.
 009. *Tarracodiscus viai* nov. spec. Romero, Rogers & Gershwin 2011. Cnidaria :
 Aequoreidae.
 010. *Tarracodiscus villaltai* nov. spec. Romero, Rogers & Gershwin 2011. Cnidaria :
 Aequoreidae.
 011. Heliobbranchidae nov. fam. Romero, Rogers & Gershwin 2011. Cnidaria :
 Coronatida.
 012. *Helobbranchia* nov. gen. Romero, Rogers & Gershwin 2011. Cnidaria :
 Heliobbranchidae.
 013. *Heliobbranchia catalunica* nov. spec. Romero, Rogers & Gershwin 2011. Cnidaria :
 Heliobbranchidae.

MEDIA EXPERIENCE
